We Expect to go soon

and had not intended to say anything in the paper further, but we find the season will be so far gone by the time our Lorain store will be ready for us that our new goods which were bought before we had settled on going away, and are now coming in, would be left over. No one could say that we ought to carry these over. Our obligations are out and must and will be met.

Considering our Condition

we must put these goods before you and if our terms suit you we hope you won't let us carry this stock of clothing away. Our business demands our pushing it every day and hour.

We could say much that would lead to the truth of our being here and would set many right. But we prefer to bear it, at least for a time, believing these things will work out all right in time, and the public will realize our position.
